

PLEASE DO NOT CHANGE YOUR RULES! I listen to WGNR (97.9 fm) and to K-LOVE (91.5 fm) every day and am a contributor to K-LOVE. Both of these stations inspire me to be a better person and to live my life in a way that pleases God. I drive the highway 70 miles round trip every day and would be a poster child for road rage without the music, testimonies and worship that come across the car radio. If a non-Christian person is allowed to influence these stations, that inspiration would likely be taken away. These stations barely survive using the funding they receive from pledge drives. We would most likely lose most of them if they were required to add people to their payroll. Please do not take away what little sanity there is on the radio these days!
